

## REALTIME-Vehicle

### Fleet Management in the Cloud

Track and manage your vehicles easier than you have ever imagined:

Track vehicles for:

- Who is assigned to or what location
- Out of service and/or expected return
- Scheduled for service with notifications
- Employees request and notification of service needs
- Fuel records (including receipt photo and shared to the accounting department in "REALTIME")

**Knowing where your vehicles are and their condition can give you the ability to assure all your vehicles are "making you money!"**

#### **Additional Features of REALTIME-VEHICLE:**

- Preset vehicle inspections
  - Multi point photo records
  - Notice of failed inspections
- Check in and check out record and inventory checklists
- Vehicle details inventory
- Live dashboard of fleet inventory and status
- Trucks, cars, trailers, lifts, or other mobile equipment
