

REALTIME-Worker

Timecard and Scheduling Tool in the Cloud

REALTIME-WORKER allows you to:

- Create job lists for users to log time for simplifying and standardizing your time logs.
- Track job-tasks, sub-tasks, and worked hours versus hours projected
- Allow your team to request any resources (manpower, vehicles etc.)
- Email/Print/Save as PDF project schedules for any job or individual
- Quickly look at multiple jobs or individuals' schedules to confirm if resources are appropriately allocated or if adjustments are needed.
- REALTIME-WORKER comes free with any other module purchased or you can purchase it as a standalone module.

Keeps your schedule and workers time logs up-to-date in "REALTIME"!
