

REALTIME-Training

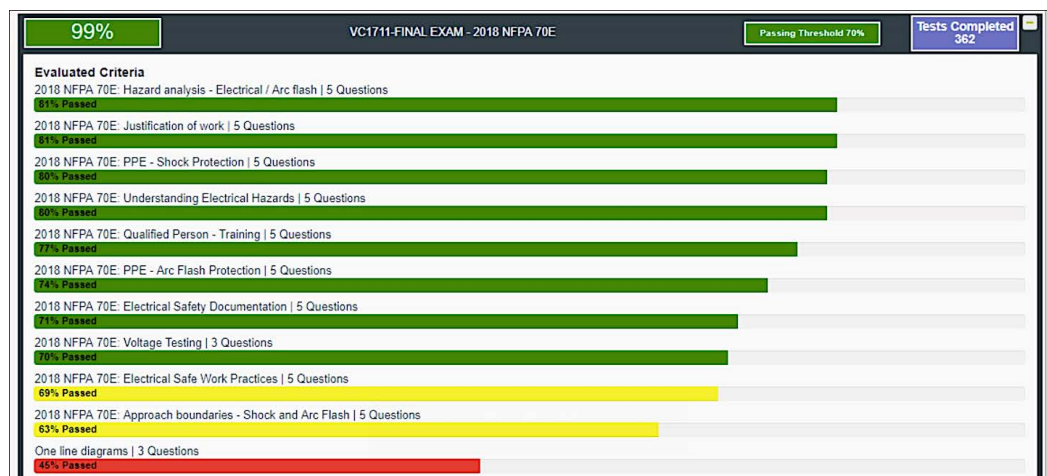

Company Training and Testing at a Glance

REALTIME-TRAINING saves time, improves productivity, and creates a safer work environment by providing:

- Detailed analytics reporting that pinpoints where more training or course revisiting is needed; reducing potential for workplace accidents.
- “REALTIME” access to training on laptops, tablets and even smart phones.
- Subject Matter Experts' to help customize your criteria; creating the best questions and perfect tests.
- Easy viewing and exporting of all reports and certificates.
- Cloud based training that does not require hardware or software installation.
- Course access options; choose a subscription plan for full course access or course assignment (pay as you go option).

REALTIME-TRAINING'S powerful analytics ensure the ability to build higher quality questions providing more effective and efficient training!

REALTIME-Training

Employee Training That Saves Time and Money

REALTIME-TRAINING video courses help you eliminate:

- Scheduling conflicts and costs; minimizing facility downtime.
- Shifting job priorities that create last-minute cancellations.
- Travel and training facility costs.
- Presentation inconsistencies.
- Trainee information overload; increasing memory recall of trained material and safety.
- Potential for costly human error.

REALTIME-TRAINING allows for company and worker flexibility:

- Workers can take training at their most convenient time.
- Allows workers to absorb material at their pace, not the instructors.
- Never worry about rescheduling a missed training.
- Professional training courses designed by Experts satisfy OSHA compliance.
- System reporting and grading saves time in having to manually grade tests.

TEST Trac lets you easily identify, measure and compare groups, employees and locations. Easily spot training trends and gaps within large groups.

Criteria Analysis

VC1711-FINAL EXAM - 2018 NFPA 70E
